

Ehsan Mosahebeh

Web Developer | PHP, JavaScript & WordPress | E-commerce Tooling & Automation

Netherlands, Arnhem (Ready to relocate) | +31647553193 | emosahebeh@gmail.com | linkedin.com/in/ehsan-mosahebeh

Professional Summary

Web developer with 5+ years building custom PHP and JavaScript tools, WordPress plugins and automation systems for e-commerce platforms. Track record of turning manual, error-prone workflows into reliable automated solutions — including a full PHP task-management system and a plugin that replaced roughly four months of manual work. Committed to clean, maintainable code and continuous learning.

Key Skills

PHP | JavaScript | WordPress Plugin Development | MySQL | HTML5 | CSS | REST APIs | Google Tag Manager | Web Scraping & Crawlers | Cron Automation | Technical SEO | Schema Markup | Power BI | Python (basic) | Analytical Problem Solving

Professional Experience

Category Analytics & Commercial Operations Intern, [Joybuy \(JD.com Europe\)](#), Rotterdam | Apr 2026 – Present

Gain hands-on experience in commercial operations within one of the world's largest online retail ecosystems.

- **Data automation:** Built one-click Excel/data-cleaning tools that updated entire files and formulas automatically, standardising data transfer between teams and Beijing operations.
- **AI-assisted tooling:** Developed an AI-assisted forecasting model (~70–80% accuracy) from historical price and units-sold data, forecasting ~350 SKUs of weekly campaign demand.
- **Reporting:** Built Power BI dashboards tracking SKU, campaign and product-manager performance across ~5,000 FMCG SKUs.

Affiliate & Performance Marketing Intern, [Philips DA \(Versuni\)](#), Amsterdam | Aug 2024 – Feb 2025

Relocated to the Netherlands and undertook an MBA internship with the D2C Affiliate team.

- **JavaScript / GTM:** Implemented dynamic pricing using JavaScript in Google Tag Manager — reading UTM URL parameters to apply partner-specific discounts and prices in real time.
- **AI-assisted code generation:** Built a tool that auto-generated custom JavaScript to apply per-product discounts on landing pages based on each product row's title.
- **Tracking & dashboards:** Configured event, UTM and conversion tracking in GTM and built a Power BI dashboard automating monthly reporting for 17 partners across 8 markets.

Web Developer & Digital Specialist, [NetWebCo](#) | Feb 2021 – Sep 2023

Joined a mid-size agency specialising in Magento e-commerce services.

- **Plugin engineering:** Programmed ~5 custom WordPress plugins; one auto-corrected a 15,000-product WooCommerce catalogue error-free in a month, replacing ~4 months of manual work by two staff.
- **Automation:** Built a cron-based plugin that updated prices for 4,000 products twice daily against a competitor's OpenCart store.
- **Technical SEO engineering:** Diagnosed and fixed indexing, crawling, canonical, robots.txt and Core Web Vitals issues across Magento and WordPress sites via Google Search Console.

SEO & Web Developer, [19kala](#) | Dec 2019 – Feb 2021

Worked in an OpenCart e-commerce operational team environment.

- **Full-stack tooling:** Built an internal task-management system end-to-end in PHP, JavaScript and MySQL — 7-stage workflow with role-based access used by ~20 people; ~1,100 tasks completed in one year.
- **PHP web scraping:** Built a price-crawler that monitored ~100 products across 5 competitor sites, updated 3x/day and auto-emailed the sales team on competitor price drops.
- **WordPress development:** Replaced a heavy legacy ad plugin with a lightweight custom plugin (slider injected at paragraph 5) serving up to ~100,000 daily blog visitors.

Education

Master, Business Administration, Wittenborg University of Applied Sciences, Netherlands | Oct 2023 – Oct 2025

Bachelor, Civil Engineering, University of Science and Culture | Oct 2014 – Aug 2018
